# Disclaimers

This Whitepaper does not constitute an offer or invitation, or any other sale or purchase of shares, securities, or any of the assets. Any possession of REKREAY shall not grant any rights in any form to the user, including but not limited to any rights of ownership, interest, profit, redemption, property or intellectual property, decision making, or any other such rights, such as any rights of financial or legal nature, in REKREAY the corporation or its affiliates. REKREAY may be used for protocol and ecosystem governance which has no bearing to the corporation or its affiliates.

## Risks

You acknowledge and agree that there are numerous risks associated with purchasing REKREAY, holding REKREAY, and using REKREAY for participation in the REKREAY Platform. In the worst scenario, this could lead to the loss of all or part of the REKREAY which had been purchased. IF YOU DECIDE TO PURCHASE REKREAY, YOU EXPRESSLY ACKNOWLEDGE, ACCEPT AND ASSUME THE FOLLOWING RISKS:

## 1. Uncertain Regulations and Enforcement Actions

The regulatory status of REKREAY and distributed ledger technology is unclear or unsettled in many jurisdictions. The regulation of virtual currencies has become a primary target of regulation in all major countries in the world. It is impossible to predict how, when or whether regulatory agencies may apply existing regulations or create new regulations with respect to such technology and its applications, including REKREAY and/or the REKREAY Platform. Regulatory actions could negatively impact REKREAY and/or the REKREAY Platform in various ways. The Foundation, the Distributor (or their respective affiliates) may cease operations in a jurisdiction in the event that regulatory actions, or changes to law or regulation, make it illegal to operate in such jurisdiction, or commercially undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction. After consulting with a wide range of legal advisors and continuous analysis of the development and legal structure of virtual currencies, a cautious approach will be applied towards the sale of REKREAY. Therefore, for the token sale, the sale strategy may be constantly adjusted in order to avoid relevant legal risks as much as possible.

## **2. Inadequate Disclosure of Information**

As at the date hereof, the REKREAY Platform is still under development and its design concepts, codes, and other technical details and parameters may be constantly and frequently updated and changed. Although this white paper contains the most current information relating to the REKREAY Platform, it is not absolutely complete and may still be adjusted and updated by the REKREAY team from time to time. The REKREAY team has no ability and obligation to keep holders of REKREAY informed of every detail (including development progress and expected milestones) regarding the project to develop the REKREAY Platform, hence insufficient information disclosure is inevitable and reasonable.

### 3. Competitors

Various types of crypto management platforms are emerging at a rapid rate, and the industry is increasingly competitive. It is possible that alternative parties could be established that utilize the same or similar code and protocol underlying the REKREAY Platform and attempt to re-create similar facilities. The REKREAY Platform may be required to compete with these alternative parties, which could negatively impact REKREAY and/or the REKREAY Platform.

#### **4. Loss of Talent**

The development of the REKREAY Platform greatly depends on the continued co-operation of the existing technical team and expert consultants, who are highly knowledgeable and experienced in their respective sectors. The loss of any member may adversely affect the REKREAY Platform or its future development. Further, stability and cohesion within the team is critical to the overall development of the REKREAY Platform. There is the possibility that conflict within the team and/or departure of core personnel may occur, resulting in negative influence on the project in the future.

## **5. Failure to develop**

There is the risk that the development of the REKREAY Platform will not be executed or implemented as planned, for a variety of reasons, including without limitation the event of a decline in the prices of any digital asset, virtual currency or REKREAY, unforeseen technical difficulties, and shortage of development funds for activities.

## **6. Security Weaknesses**

Hackers or other malicious groups or organizations may attempt to interfere with REKREAY and/or the REKREAY Platform in a variety of ways, including, but not limited to, malware attacks, phishing attacks, supply chain attacks, and brutal attacks. Furthermore, there is a risk that a third party or a member of the Foundation, the Distributor or their respective affiliates may intentionally or unintentionally introduce weaknesses into the core infrastructure of REKREAY and/or the REKREAY Platform, which could negatively affect REKREAY and/or the REKREAY Platform.

Further, the future of cryptography and security innovations are highly unpredictable and advances in cryptography, or technical advances (including without limitation development of quantum computing), could present unknown risks to REKREAY and/or the REKREAY Platform by rendering ineffective the cryptographic consensus mechanism that underpins that blockchain protocol.

## 7. Other Risks

In addition, the potential risks briefly mentioned above are not exhaustive and there are other risks associated with your purchase, holding and use of REKREAY, including those that the Foundation or the Distributor cannot anticipate. Such risks may further materialize as unanticipated variations or combinations of the aforementioned risks. You should conduct full due diligence on the Foundation, the Distributor, their respective affiliates, and the SafePal team, as well as understand the overall framework, mission and vision for the REKREAY Platform prior to purchasing REKREAY.
